HuskyCT User Guide: Content Types

Item: Created using a built-in text editor that can include text, images, tables, etc. directly to a Content Area/Content Folder page.
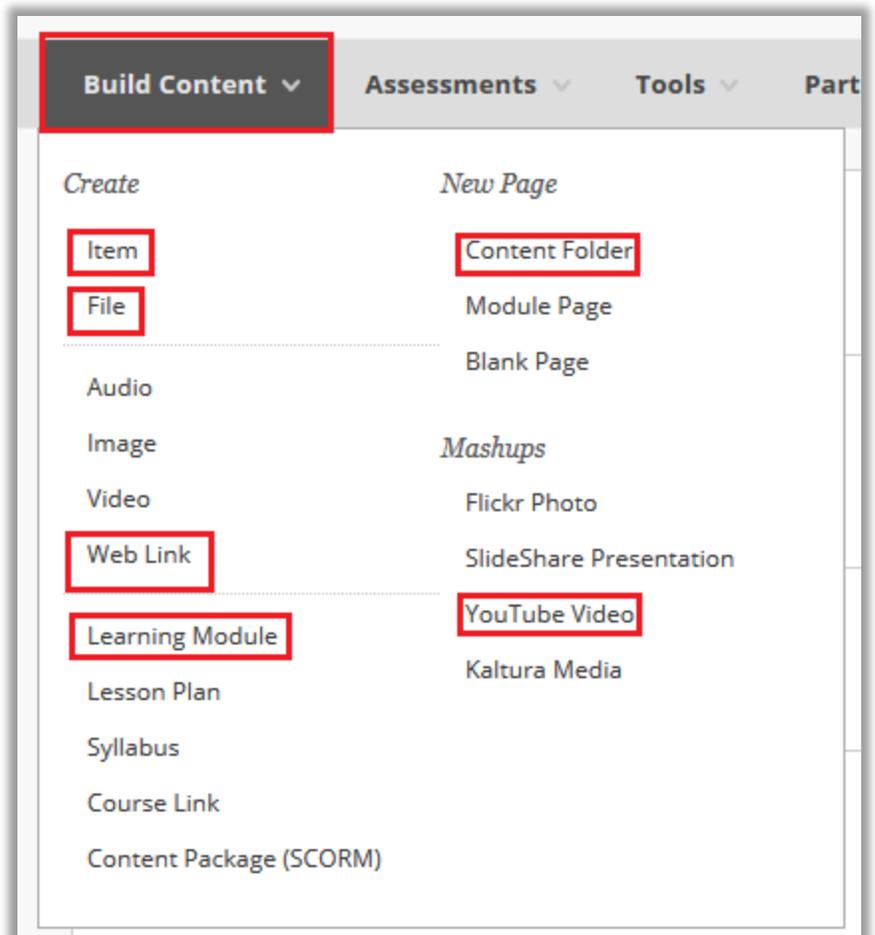

File: Browse your computer or Content Collection to add a file that was created outside of HuskyCT such as PDF, Word, and PowerPoint.

Web Link: Provide users with a link to an external site.

Learning Module: Organizes multiple content items into a collection with links in a Table of Contents that is generated during the build process.

Content Folder: A page which allows for the addition of all content types using "Build Content", "Assessments", "Tools", and "Publisher Content"

YouTube Video: A "Mashup" that allows for easy embedding of YouTube content.

NOTE: When adding a file or a web link, be sure it is set to "Open in New Window"
